

Exhibition in 46th NEPCON Japan

Lumiotec Inc. makes an exhibition in “46th NEPCON Japan” at Tokyo Big Sight.

This exhibition is the world’s leading trade show for electronics manufacturing and R&D and will gather many visitors from all over the world.

We think “industrial machine” is an important and valuable market for OLED lighting, and through this exhibition, we would like to advertise our OLED widely to visitors and exhibitors.

We will exhibit some actual machines equipped with OLED, which our customers have already used.

Of course we will exhibit “Flexible OLED” in addition to the current products.

We are looking forward to your visit.

46th NEPCON JAPAN

<http://www.nepcon.jp/ja/>
